

## LAB 25 - VALIDATION

**Task:** Add Validation to the Movie Registration form.

**Build Specifications:** Display appropriate error messages so the user can re-enter a valid input.

- The Title Field should allow only 50 characters max
- Genre should be either radio buttons or a drop-down box
- Year should be 1880 minimum (Date of the first known film) and the current year should be the maximum

**Hint:** Date time and Razor are your friends here.
